## COBRA ARTIST PEASANTS SETS

Cobra Artist is an artists' quality water-mixable oil paint with an exceptionally high degree of pigmentation using only the very best pigments and oils to create the colors. The colors have the highest degree of lightfastness (+++) and will remain unchanged for at least 100 years under museum conditions.

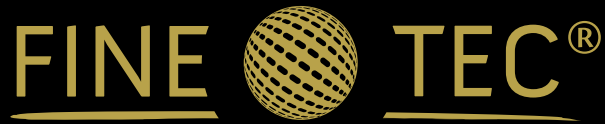

To tie in with the theme of the new "Peasants" film, two new Cobra sets have been developed, featuring landscape and portrait colors. Each set comes in beautiful packaging with imagery from the film, making them a great gift for artists, art lovers, and film fans.

**ITEM NO. 21829501 & 21829502 | MSRP \$149.95**

The film, "The Peasants," is an adaptation of a Polish peasant love story by Hugh Welchman that won the Nobel Prize in Literature. The studio's 2017 production 'Loving Vincent', received several awards and nominations and grossed over \$42 million at the box office.

# FINETEC® PREMIUM WATERCOLOURS FOUR ELEMENTS SET

FINETEC® Premium Watercolours are known for their exceptional-quality and striking luminosity. These intense shimmering colors are specially formulated with oxidized glass, ethically-sourced mica and rare pigments. They are non-toxic, highly-pigmented, lightfast, and can be activated quickly with water and blended smoothly with either a brush or dip pen. The new Four Elements Set includes 24 stunning colors grouped by theme – Fire, Water, Earth and Air. The Fire, Water and Earth colors are all pearlescent and highly opaque. The Earth colors also offer a unique matte finish that when used in underpainting helps to create dimensional layering. Air colors are all iridescent, making them almost transparent on light surfaces but on dark surfaces they shimmer magically in the light. With the launch of this new set, come 23 brand new colors to the FINETEC® Premium Line (one color is already in the existing Premium Assortment).

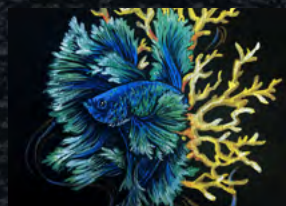

See page 39 for the new assortment.

ITEM NO. F7024 | MSRP \$299.95
